Water was over the road near the intersection of Harvest Road and Glacier Road. Bear Creek was also reported out of its banks with extensive lowland flooding.				
CLAYTON COUNTY --- 2.4 SE EDGEWOOD [42.64, -91.40]				
	10/07/07 18:40 CST		0	Heavy Rain
	10/07/07 18:40 CST		0	Source: COOP Observer
A total of 5.21 inches of rain fell between 2:00 p.m. CST and 6:40 p.m. CST.				
CLAYTON COUNTY --- 0.6 SSE EDGEWOOD [42.66, -91.43], 2.8 ESE EDGEWOOD [42.66, -91.38], 3.0 WSW ELKPORT [42.71, -91.33], 1.8 S LITTLEPOR [42.72, -91.37]				
	10/07/07 18:45 CST		3K	Flash Flood (due to Heavy Rain)
	10/07/07 21:00 CST		0	Source: COOP Observer
Bear creek flash flooded over Faucet Road.				
Thunderstorms with heavy rainfall repeatedly moved across the southern part of Clayton County during the evening of October 7, producing 3 to 5 inches of rain within about three hours. Several roads were under water, as reported by law enforcement officials and the public.				
MINNESOTA, Southeast				
DODGE COUNTY --- 1.2 N WEST CONCORD [44.17, -92.90], 1.0 WNW CONCORD [44.15, -92.85], 1.3 NNW CONCORD [44.17, -92.84], 2.3 N WEST CONCORD [44.18, -92.90]				
	10/01/07 00:00 CST		10K	Flood (due to Heavy Rain)
	10/01/07 19:00 CST		0	Source: Law Enforcement
Heavy rain produced flooding along the Middle Fork of the Zumbro River causing it to exceed 100 yards wide at some points. A bridge along County Road 7 caused the river to dam which also led to more flooding. Water was 2 to 3 feet deep running through fields and many roads were impassable.				
A cold front moved slowly into southeast Minnesota during the late evening hours on September 30th and the early morning hours of October 1st. Thunderstorms along and ahead of the cold front produced excessive rainfall amounts of up to 3 inches in two hours. This caused flooding in northern Dodge County.				
WISCONSIN, Southwest				

Storm Data and Unusual Weather Phenomena - October 2007

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
